

# TIANYAO CHEN

*Mobile (Android & iOS) Engineer. Passionate to Explore Web Backend, ML, and Data Science.*

✉ [tillchen417@gmail.com](mailto:tillchen417@gmail.com) · ☎ +49 1744588032 · in [tillchen](#) · 🌐 [tillchen](#) · 🌐 [tillchen.com](#)

DOB: April 17th, 2000 · Nationality: Chinese · Address: NA-301, College Ring 3, 28759 Bremen, Germany

## 🎓 EDUCATION

**Jacobs University Bremen**, Bremen, Germany 2018/08 – Present

*B.S. Computer Science, Class of 2021*

- Featured courses: Algorithms & Data Structures, C & C++, OS, DB, Software Engineering, ML, R.

## 👤 EXPERIENCE

**Jacobs University Bremen**, Bremen, Germany 2020/02 – Present

*Teaching Assistant*

- Grading homework, exams, and giving tutorials for: Algorithms and Data Structures
- Leveraged knowledge: Algorithms & Data Structures, Java, C++, Python, C.

**Jacobs University Bremen**, Bremen, Germany 2019/09 – 2019/12

*Teaching Assistant*

- Graded homework, exams, and gave tutorials for: Intro to CS, Data Management (from Data Engineering).
- Leveraged knowledge: Haskell, MySQL, Python, GCP, General Computer Science.

**TD Tech**, Beijing, China 2019/06 – 2019/08

*Software Engineer Intern*

- Continuously and efficiently delivered significant features to enterprise Android apps on top of the AOSP.
- Wrote comprehensive Python and Batch scripts, which automated the Android custom ROM upgrading process for enterprise Android devices and reduced the upgrade time by at least 67%.
- Leveraged knowledge: Android Development (Java), Git, Scripting, Debugging, SQLite, Linux.

## ⚙️ PROJECTS

- **Personal Website**: <https://tillchen.com> (for additional info, projects, testimonials, and tech blog.)
- **JStore (Android): Marketplace for Jacobs University** [https://github.com/tillchen/JStore\\_Android](https://github.com/tillchen/JStore_Android)
  - Single-handedly built the Android app that enables students on campus to sell and buy items with ease.
  - 100+ commits. 5000+ LOC (Java + XML). 400+ registered users. Available on [Google Play](#).
  - Utilized: Java, Android Jetpack, Firebase (Auth, Cloud Firestore (NoSQL), Storage (GCP))
- **JStore (iOS): Marketplace for Jacobs University** [https://github.com/tillchen/JStore\\_iOS](https://github.com/tillchen/JStore_iOS)
  - Single-handedly building the iOS app that enables students on campus to sell and buy items with ease.
  - 40+ commits. 1000+ LOC (Swift). 400+ registered users. Coming soon on App Store.
  - Utilized: Swift, iOS SDK, Firebase (Auth, Cloud Firestore (NoSQL), Storage (GCP))
- **4minitz - Meeting Minutes Web App**: <https://minitz.jacobs.university>
  - Deployed, modified, and maintaining the open source web app [4minitz](#) from [GitHub](#) on a Debian server.
  - Utilized: Docker, Nginx, Certbot, cron (auto certificate renewal), JSON, Linux commands, Vim, SMTP.

## 💻 SKILLS

- **Java, Swift, C++, Python, C, JavaScript, Android SDK (Android Jetpack), iOS SDK, Git, SQL, Bash, Firebase (NoSQL), Batch**; Kotlin, HTML/CSS, GCP, Docker, Haskell.
- Chinese(Mandarin) - Native Speaker; English - Proficient; German - A2, Learning.
